

6th International Congress and Exhibition on Aluminium Heat Exchanger Technologies for HVAC&R

07 – 08 May, 2019

**Hotel Radisson Blu Scandinavia,
Düsseldorf/Germany**

1ST ANNOUNCEMENT & CALL FOR PAPERS

HVAC&R 2019

The 6th International Congress and Exhibition on Aluminium Heat Exchanger Technologies for HVAC&R, organised by the DVS – German Welding Society, will take place from 07 – 08 May, 2019 in Düsseldorf/Germany in the Radisson Blu Scandinavia Hotel.

Stringent environmental requirements for increasing energy efficiency and reducing emissions are the greatest challenges the heating, ventilation, air conditioning and refrigeration industry faces.

The 6th International Congress on “Aluminium Heat Exchanger Technologies for HVAC&R” is dedicated to these challenges.

This is a must-attend event for producers, suppliers and users in the field of air conditioning and refrigeration.

The organisers invite interested authors to submit their **abstracts by 30 November, 2018** using the online system on: www.dvs-ev.de/hvacr2019

Subject Groups:

- 1** Overview about the current market and its future
- 2** Applications
- 3** Testing & Design
- 4** Corrosion
- 5** Standards
- 6** HVAC&R and HX products
- 7** Research and Development

This variety of topics covers different aspects of the market environment. Changes in the global environmental policy as well as the choice of materials raise new questions that require answers – especially in material selection. Research, test methods and new standards, which influence design and manufacturing are the focus of this event. Both the heat exchanger manufacturers and their customers are required to respond.

Additional Information:

Presentations should be kept to 20 to 25 minutes, with a further 5 minutes at the end for discussion.

The Congress language is English.

Speakers will be informed in writing about the acceptance of their presentations. They will be able to attend the congress free of charge (excluding hotel costs).

All manuscripts must be written in English and submitted electronically.

The **manuscript deadline** for all contributions will be **1st February, 2019**. Selected congress contributions will be published in the conference proceedings which will be available at the conference.

Accompanying Exhibition:

In addition, there will be an exhibition from 07 – 08 May, 2019, where companies will have the opportunity to present to an international specialist audience. Exhibition spaces and counter displays (1-3 sqm) can be made available in the lobby area of the hotel. Because of the positive feedback for the last exhibition and very limited space, we recommend you to book early (first come first serve).
